**MANAGEMENT DISCUSSION AND ANALYSIS**

To,  
The Members/Shareholders,

• **ECONOMIC REVIEW:**

This year has been marked by several historic economic policy developments. On the domestic side, a constitutional amendment paved the way for the long-awaited and transformational goods and services tax (GST) while demonetisation of the large currency notes signalled a regime shift to punitively raise the costs of illicit activities. This radical governance-cum-social engineering measure was enacted on November 8, 2016. The two largest denomination notes, Rs 500 and Rs 1000 together comprising 86 percent of all the cash in circulation—were “demonetised” with immediate effect, ceasing to be legal tender except for a few specified purposes. Demonetisation was aimed at signaling a regime change, emphasizing the government’s determination to penalize illicit activities and the associated wealth. In long run, India is unlikely to be impacted economically much from the unfavorable situation in other parts of globe.

In India, the growth forecast for the year 2016–17 and next fiscal year were trimmed by 1% point and 0.4 % point, respectively, primarily due to the temporary negative consumption shock induced by cash shortages and payment disruptions associated with the recent currency note withdrawal and exchange initiative. According to the reports, the economy is set to grow by robust 7.4% in current fiscal year backed by agriculture sector estimated to clock 3.5% and improvement in the performance of industry and service sector. In the first 4 months of 2017, the BSE Sensex has gained 12.6% and in April it grew 1%. The rupee appreciated over 1% against US Dollar in April.

**INDIAN GDP GROWTH**

According to the International Monetary Fund (IMF), the growth forecast of India for 2017 has been trimmed by 0.4 percentage point to 7.2%, primarily because of the temporary negative consumption shock induced by cash shortages and payment disruptions from the recent currency exchange initiative. IMF’s projection makes India the fastest growing major economy in 2016-17. IMF at its World Economic Outlook said India’s economy has grown at a strong pace in recent years owing to the implementation of critical structural reforms, favorable terms of trade, and lower external vulnerabilities. India’s GDP rate is expected to be 7.7% in 2018-19.

• **INDUSTRY STRUCTURE AND DEVELOPMENT:**

The development of Indian security markets began with launch of Bombay Stock Exchange (BSE), Mumbai in July 1875 and Ahmedabad Stock exchange in 1894 and 22 other exchange in various cities over the years.

India’s IPO market recorded strong performance in 2016 with 83 IPOs raising USD 3.8 billion this year, and the activity looks set to remain strong driven by a combination of high investor confidence and regulatory reforms. India was the standout performer at the country level, recording a 38 per cent increase in deal volume and a 79 per cent surge in proceeds raised, driven by stronger economic fundamentals and a pro-business political regime. Continuous changes in investment climate and further policy improvements like implementation of GST could fuel even more demand resulting in need for equity and more action in the IPO market place. With a supportive political backdrop, upbeat

economic sentiment, improved business confidence, easing inflationary pressure and stable foreign direct investment inflows, the pipeline is looking solid for 2017.

Apart from domestic listings, Indian companies are also looking at cross-border IPOs to tap growth and market expansion opportunities and the means to access risk capital. More listings in the insurance sector could be on the horizon, following the government approval to raise foreign ownership to 49% from 26%.

- **OPPORTUNITIES AND THREATS:**

The company had initiated recovery proceedings against its past dues. There is huge delay in recovering the dues from them due to slow and pro-defendant legal system. However the company has implemented the action plan for speedy recovery of dues from its defaulters. The company does not have powers like Bank under various legislations. The Indian financial markets are stable and the company is sure to get benefits of the overall economic growth environment. The company is exploiting opportunities in the capital market and investment banking. The present government is also supportive of business growth and for the purpose amended many Acts and introduced new laws like The Insolvency and Bankruptcy Code, 2016, amendments in Companies Act, 2013, Income Tax Act, 1961, making effective Goods and Service Tax for doing the business easy in India and thereby attract foreign investment, relaxing FDI in many sectors and other steps to grow the economy by the government creates optimistic business environment. It shall also be helpful to your Company for resolving its pending issues related to past dues from various business transactions carried out.

- **SEGMENT WISE PERFORMANCE:**

The company operated in two major segments of consulting and investments. The capital raising activity is on recovery stage. The recovery proceedings are going on in a lawful manner. The capital market consulting activity continued at slow pace and the investments have fared better in line with growth of the economy.

- **OUTLOOK:**

The Indian economy is growing strongly and remains a bright spot in the global landscape. India's overall outlook remains positive, although growth will be slow temporarily as a result of disruptions to consumption and business activity from the recent withdrawal of high-denomination banknotes from circulation. But the nation's expansion will pick up again as economic reforms kick in. The government has made significant progress on important economic reforms, which will support strong and sustainable growth going forward. Therefore, the company is optimistic about the recovery of Indian economy and the capital market. Demonetisation did not have a big impact on listed companies though it needs to be watched in coming months. India is relatively less impacted from global protectionist measures as domestic consumption is around 65% of GDP.

- **RISKS AND CONCERNS:**

The company has taken suitable steps to overcome the risks of the market and the economy as capital markets are uncertain to predict for medium to long term.

- **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The company has implemented proper system for safeguarding the operations/business of the company, through which the assets are verified and frauds, errors are reduced and accounts, information connected to it are maintained such, so as to timely completion of the statements.

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets,

**“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of Mehta Integrated Finance Limited**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Mehta Integrated Finance Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.
